SIEMENS （西门子）

INTRODUCTION
Siemens AG, founded in 1847, is a global technology powerhouse active in more than 200 countries, focusing on the areas of electrification, automation and digitalization. One of the world’s largest producers of energy-efficient and resource-saving technologies, Siemens has leading positions in offshore wind turbine construction, combined cycle turbines for power generation, power transmission solutions, infrastructure solutions, automation, drive and software solutions, as well as medical imaging equipment and laboratory diagnostics.

POSITION
Software tester
(Design and develop internal tools for R&D. Support the integration test of LOGO! Project.)

REQUIREMENTS
1. Bachelor or Master, master is preferred.
   Any major, Computer Science/Telecommunication/Automation Control are preferred.
2. Familiar with C#, .net/Java, or similar languages.
3. Experience on C or Java in application software is preferred
4. Knowledge or experience of working on automation system e.g. PLC is an addition
5. Can read/write English

Xiaomi （小米）

INTRODUCTION
Xiaomi was founded in 2010 by serial entrepreneur Lei Jun, who believes that high-quality technology doesn't need to cost a fortune. At Xiaomi, we've brought together smart people from Google, Kingsoft, Microsoft, Motorola, Yahoo, and other Internet and tech companies from around the world to bring that vision to life. We create remarkable hardware, software, and Internet services for — and with the help of — our Mi fans. We incorporate their feedback into our product range, which currently includes Mi 4, Mi 3, Mi Pad, Mi Box, Mi TV, Redmi1S and Redmi Note, Mi Power Bank and other accessories. We sell direct to customers to keep our prices competitive. And with more than 18 million handsets sold in China in 2013 and products launched in Taiwan, Hong Kong, Singapore, Malaysia, Philippines, India and Indonesia, we are ready to go global.

POSITION
Android development engineer

REQUIREMENTS
1. In the field of computer technology has solid technical strength, especially in the data structure, algorithm and code, software design capability
2. Have certain mobile/embedded application development experience
3. More than one year the Android client or mobile/embedded development experience is preferred
4. Familiar with network communication protocol, GPRS / 3G environment network
Application development experience is preferred

HSBC (汇丰中国)

INTRODUCTION

HSBC is a large, well-established organisation that can offer career security and stability. Indeed we appreciate the significance of our reputation as a prestige employer. But can HSBC offer you the rewards that will enable you to meet your life aspirations? The answer is, it's very much up to you. Our total financial rewards package is already market competitive. However, increasingly our reward ethos is based upon a variable pay for performance meritocracy, whereby annual bonus is linked to a performance appraisal process that looks back at past performance as much as future potential and development.

POSITION

HBCN Summer Internship Programme, in the Retail Banking and Wealth Management area.

REQUIREMENTS

1. This programme is for students in their penultimate year of university study or second year of graduate study.
2. Act with integrity, in keeping with HSBC’s values
3. Have outstanding interpersonal skills, even when under pressure
4. Have strong commercial acumen and a flair for problem solving
5. Be self-motivated, confident and articulate
6. Successfully go through all relevant assessments

LOCATION

Shanghai

OTHER INFORMATION

You'll complete an eight-week placement, where you'll contribute to a live project or a number of transactions, working with products and services experts across our international network. There will also be regular business and social events for you to attend in order to begin building a network of contacts.
